Optima Document Wallet Black(3)

2102479

Overview

Organising yourself has never been easier with the new range of Rexel Optima™ files. Find them faster, access their contents more easily, and keep your papers neat, secure and under control!

Description

No-one can claim that filing is fun can they? The Rexel Optima filing range helps you to get organised in the least painful way possible. Look good, and be in control of your paperwork.

The Document Wallet has expandable sides, so you can easily store or carry up to 150 sheets.
This wipe-clean plastic expandable wallet can withstand the wear-and-tear of everyday life, including the odd rain shower, whilst keeping papers neat and safe. Forget fiddly poppers, this file has an easy-access but secure magnetic closure. To help you see and get at the contents even faster, the wallet has a unique drop-back lid for easy access – little touches that make all the difference.

For those of us who want to grab the right file and look like an organised-type of person, there is an integrated, re-usable identification label. For that extra one-upmanship forego the smudged hand-written version and print the label for a really impressive finish.

As an additional benefit, the Document Wallet comes in opaque form, allowing for confidentiality and

discretion. For extra filing efficiency, opt for colour coding by buying another shade in the range. With 3 wallets in each pack you can really get your organisation resolution underway.

Features

- Expanding side-wall for flexible capacity up to 150 sheets
- Hinged lid for full access to documents
- Secure magnetic closure
